KALMIA LATIFOLIA (Mountain Laurel)

**IMPORTANT** *Read Before  
Ordering*

**Our Hardy Native Plants** are shipped direct from Highlands Nursery, in the western North Carolina mountains, from Pineola, N. C., freight station. The present freight rate to New York, Boston and Philadelphia is 96½ cents per 100 pounds. Special express rates, connecting with Norfolk steamers.

**We claim superior packing**, our export shipments reaching the most remote countries in perfect condition. **Packing charged for at cost.**

**Foreign remittances** should be sent by International Postal Money Order, drawn on Boston, Mass., Post Office, or by New York or Boston Exchange. An American dollar is equal to a little more than four (4) English shillings, four (4) German marks, or five (5) francs.

**Our foreign correspondents** are notified that we use the Western Union and A. B. C. Telegraph and Cable Codes. Cable address, **Kelmont-Boston.**

**Claims** must be made immediately on receipt of goods. **All shipments travel at consignee's risk.** Shipping begins about September 15 and lasts till December, and in spring from March 1 to May 15. Give shipping instructions unless you wish to leave it to us. We use our best judgment but assume no risk.

**Growing Rhododendrons, Azaleas, Kalmias, Hemlocks** and other plants of this class in wholesale quantities will continue to be our specialty. All the leading parks, cemeteries and nurseries of America, as well as those abroad, have been satisfactorily supplied in the past with many hundreds of thousands of plants from **Highlands Nursery.**

 **Our Nurseries are inspected by the North Carolina Commission for controlling crop pests, and certificate of inspection is sent out with every shipment**

**We Have 150,000 Rhododendrons and Kalmias Growing in Nursery**

# Kelsey's Hardy American Plants, Highlands Nursery

## Conifers and Evergreen Trees, continued

	Size	Per 10	100	1,000
<b>TSUGA caroliniana</b> , Carolina Hemlock .....	12 to 18 in.	\$2 50	\$20 00	
" " " " .....	18 to 24 in.	3 50	30 00	
" " " " .....	2 to 3 ft.	8 00		
" " " " .....	3 to 4 ft.	20 00		
" " " " .....	\$3.50 to \$10 ea. 4 to 8 ft.			

This grand new Hemlock, introduced by us, possesses a distinct pyramidal growth, and attains a height of 40 to 50 feet. Its dense, dark foliage and graceful habit are only approached by some of the finer Japanese Hemlocks, which it somewhat resembles. Some fine specimens are now to be seen in the Arnold Arboretum, being the first plants of this Hemlock ever sent out, and supplied by us to Prof. C. S. Sargent, Director, in 1884.

## AZALEAS

The American Azaleas are among the choicest of all ornamentals, whether exotic or native, and were but rarely seen in cultivation before being disseminated by HIGHLANDS NURSERY. Large masses of "Great Flame-Colored Azalea," *A. calendulacea*, when seen in flower, present the most gorgeous effects, the shadings varying from deep crimson to a bright sulphur-yellow, and its complete hardiness is unquestionable. The foliage of *A. arborescens* is the finest of all the Azaleas, remaining a clear, shiny green throughout the summer, a characteristic not usual with this family. The large, white, sweet-scented flowers appear the last of all the Azaleas, and the numerous pink-tipped stamens protruding give a most beautiful effect. *Azalea vaseyi* is one of the finest introductions of late years; the flowers, appearing before the foliage in April in the greatest profusion, are white to deep pink; attains a height of 12 to 15 feet. *A. nudiflora* (deep pink) and *A. viscosa* (white) are pretty, dwarfier varieties, very useful in the under shrubbery.

	Size	Per 10	100	1,000
<b>AZALEA arborescens</b> , Fragrant White Azalea .....	6 to 12 in.	\$2 00	\$15 00	\$125 00

**Rhododendron maximum.**  
(See page 12.)

# **RHODODENDRONS, KALMIAS and other HARDY NATIVE EVERGREEN SHRUBS**

The following (mostly broad-leaved) Shrub Evergreens are of greatest value for massing and for ground covering. All are perfectly hardy, and most of them produce a grand show of flowers. It is needless here to more than call attention to the large stock of *Rhododendrons* and *Kalmia latifolia* offered below. All are carefully transplanted and cultivated, and are clean and stocky. We have special methods of growing, gained by long experience, which insure healthy, well-ripened wood and good balls on roots, and the large quantities grown enable us to produce and sell at extraordinarily low prices. They will also be collected to order cheaply in any quantities.

A specialty is made of collecting to order by the car-load clumps and large plants of *Rhododendron maximum*, *Kalmia latifolia*, *Leucothoe catesbaei*, and others, which are sure to grow and produce a fine immediate effect. Cost for this service gladly estimated, and correspondence invited, particularly from landscape gardeners, and park and cemetery superintendents.
